

# ■ Grant Recipients of The Takagi Fund for Citizen Science

FY 2001-02 Grant Recipients

unit: JPY

Grant I ; Grants for Survey and Research by Individuals in Japan		
Recipient	Theme	Grant Amount
Seiichiro Takemine	How it was described in the eyes of people live near the nuclear site as a case of Hibakusya of Ailuk; a nuclear testing by US in the Marshall Islands	1,600,000
Reiko Mizuno	Studies on the changes of the sex ratio at births and fetal deaths in some prefectures of Japan	600,000
Yutaka Kuwagaki	The survey on the real situation of material flow in the recycle process and the evaluation - Plastic, concrete, food oil	500,000
Grant II ; Grants for Study / Training Encouragement for Individuals in Japan		
Recipient	Theme	Grant Amount
Kenji Asano	The policies for renewable energy under energy liberalization in EU area	1,700,000
Rinako Kunizawa	Microcredit institutes in China as a possible solution of the China's dilemma after opening the market	650,000
Humiaki Okushima	The historical process to the abolishment of commercial atomic energy in Germany	500,000
Grant III ; Grants for Survey and Research by Groups in Japan		
Recipient	Theme	Grant Amount
Hideyuki Ban, Research Group for Geological Disposal Problems	The problems of HLW geological disposal program in Japan	2,000,000
Kaori Sunagawa, Okinawa Environmental Network	Researches (1) Basic research on environmental impacts of US military facilities and activities in Okinawa (2) A feasibility study to build a technical support system among stakeholders	1,000,000
Midori Takasima, The Association for the Conservation of Biodiversity of Nagashima Island (ACoBiNI)	The overall state of Nagashima's natural environment and ecosystem	1,000,000
Masayoshi Himeno	Research on so-called "green dam" effect, flood control using high potential of forest to reserve rainwater	1,000,000
Koichi Hamada, "Tamaajisai"	Investigations and studies on the mechanism of ash flying out from the landfill caused by local atmospheric phenomena concerning topography	750,000
Grant IV ; Grants for Survey and Research by Asian Individuals and Groups		
Recipient	Theme	Grant Amount
Lei, Wei Chieh, Green Citizen's Action Alliance (GCAA),Taiwan	The Threat to health & Environment from the Construction & Operation of the Nuclear Power Plant in Taiwan	1,000,000
Watharwe, Paoloungthong, Alternative Energy Project for Sustainability, Thailand	The Environmental and Social research by the local citizen on the site of Coral Thermal Power Station	1,000,000
Tran Minh Hien, WWF Indochina Program, Viet Nam	Attending Sea Turtle Symposium 2002, in Miami, US	200,000
Grant V ; Grants for Study / Training Encouragement for Asian Individuals		
Recipient	Theme	Grant Amount
Jung Gyu, Na, Research Institute for Energy, Environment and Economy in Kyunpook National University	Study of Safe, Reliable, Environmentally Acceptable Electricity Restructuring for a Sustainable Energy and Environmental Future	1,000,000

FY 2002-03 Grant Recipients

unit: JPY

Grant I ; Grants for Survey and Research by Individuals in Japan		
Recipient	Theme	Grant Amount
Reiko Mizuno	Pattern analysis of adverse health effect from regional exposure to toxic chemicals as Sugunami diseases.	500,000
Kanji Usui	A Study on Efficiency about the Environmental Considerations of Japanese Agencies treating Development Assistance and International Finance Operation. - A case study on infrastructure projects in the Philippines -	300,000
Grant II ; Grants for Study / Training Encouragement for Individuals in Japan		
Recipient	Theme	Grant Amount
Keiko Nagase-Reimer	Social history of the irradiation of microwave on human bodies and the perception about its influences	500,000
Momoyo Sasagawa	Visiting study in the sustainable energy island "Samso": Socio-political study of public involvement and possible community development in renewable promotion	500,000
Shirow Tatsuzawa	Practice and investigation on method and social system of scientific counsel and advisory for civilian ecosystem conservation.	500,000
Grant III ; Grants for Survey and Research by Groups in Japan		
Recipient	Theme	Grant Amount
Kimiko Shizuri, Research Group for Geological Disposal Problems	Critical Investigation of Geological Disposal in Japan	1,200,000
Motosuke Matsumoto, Citizens against formaldehyde leaving in the sea around the Amakusa islands	1) Research on the actual use of formalin by aquiculture 2) Study on assessment affecting onto the environment of formalin discharged into the sea	1,000,000
Hideyuki Ban, Citizens Nuclear Information Center	A research on the safety issue of nuclear plants at the point of material-aging	1,000,000
Reiko Sato, YUSHO Support Center	A follow up study of YUSHO patients, a cohort highly exposed to dioxin 34 years ago.(include comparative study of Taiwan YUSHO patients)	1,000,000
Kaori Sunagawa, Okinawa Environmental Network	Establishment of Participatory System Involving Residents Toward Resolution of Environmental Problems Stemmed from U.S. Military Bases and their Activities on Okinawa	600,000
Hiroyoshi Yamashita, PROJECT TEAM HAMAGURI in Japan/Korea Tidal-flats Joint Survey Group	Silent tideland: extinctions of hard clam and food culture in Japan and Korea.	300,000
Mariko Sano, Green Consumer Tokyo-net	Research of the social influence accompanying biodegradable plastics spread, and countermeasures.	300,000
Yoko Nozaka	Research into the Problems and Safety of Spent Fuel Intermediate Storage Facilities	300,000

FY 2003-04 Grant Recipients

unit: JPY

Grant I ; Grants for Survey and Research by Individuals in Japan		
Recipient	Theme	Grant Amount
Hisashi Okamoto	Investigation of the scientific rule that determines the sedimentation velocity of dams in Japan.	350,000
Kyoko Mano	Historical research of sterilization with radiation exposure.	300,000
Kiyokazu Koshida	Looking back the Anti-Oil Power Plant Project Movement at Date City.	300,000
Grant II ; Grants for Study / Training Encouragement for Individuals in Japan		
Recipient	Theme	Grant Amount
Ryoko Matsuno	Regulating Endocrine Disrupters.	500,000
Minori Okuda	The analysis of Environmental law, administrative legislation procedure and citizen's movement from the viewpoint of Environmental Justice -the case study of a polluted community in San Francisco-	200,000
Grant III ; Grants for Survey and Research by Groups in Japan		
Recipient	Theme	Grant Amount
Kazuo Okunishi, Research Group of the Landslide induced by the Otaki Dam	Study of the landslide induced by the ponding of the Otaki Dam in Nara Prefecture from the viewpoint of disaster prevention for citizens.	600,000
Harumi Ishizawa, YUSHO Support Center	Interviewing survey on Yusho patients : To compile hearing data on Yusho patients.	1,100,000
Hiroshi Watanabe, Friends of the NAGI	We will continue to study the actual condition of habitual use of irrigation water which has been used since the Edo period to make reference data for river management and preservation of environment in a new age.	250,000
Motosuke Matsumoto, Citizens against formaldehyde leaving in the sea around the Amakusa islands	1) Study on chemical compounds which come from formalin. 2) Research on chemical analysis of the seabed around fish farms.	700,000
Midori Takasima, The Association for the Conservation of Biodiversity of Nagashima Island (ACoBiNI)	The investigation and elucidation of the natural environment and ecosystem of Nagashima, where there are plans to build the Kaminoseki nuclear power plant, and practical trial and verification towards the establishment of a method to protect and preserve it.	1,100,000
Michiaki Furukawa, JCO Criticality Accident Comprehensive Assessment Committee	Publication of English Translation of a Research Report on Causes and Influences of JCO Criticality Accident.	300,000
Masako Sawai, Citizens' Nuclear Information Center	Comprehensive Critical Study on the Rokkasho Nuclear Fuel Reprocessing Plant.	1,000,000
Kimiko Shizuri, Research Group for Geological Disposal Problems	Critical Investigation of Geological Disposal in Japan.	350,000
Hideyuki Ban, Citizens' Nuclear Information Center	A Study on Safety Problems Assisted by Introduction of In-service Inspection System.	900,000
Grant IV ; Grants for Survey and Research by Asian Individuals and Groups		
Recipient	Theme	Grant Amount
Borjigin Sergelen, Green Vision of Inner Mongolia	Investigation research on the afforestation organization of Japan which act the desertification prevention in Inner Mongolia.	1,000,000
Felinell Nagpala, TIMMAWA.Movement for Peassants to Free the River Agno	The threat to health and safety from the fishes bred in the reservoir of San Roque Dam.	300,000

FY 2004-05 Grant Recipients

unit: JPY

Grant I ; Grants for Survey and Research by Individuals / Groups in Japan		
Recipient	Theme	Grant Amount
Akira Sasaki	A Study and Video Production Warning a Potential Danger of Large-scale Flood- control Dams	800,000
Midori Takashima, The Association for the Conservation of Biodiversity of Nagashima Island (ACoBiNI)	Endangered biodiversity of Nagashima Island: an evaluation of preparatory geological surveys for Kaminoseki Nuclea Power Plant.	1,200,000
Hiroyoshi Yamashita, Onyu-jima Natural History Research Group	Study of natural history of Ishima-ura, Onyu-jima, Saiki, Ooita	800,000
Takenori Ueda	Risk study of Electromagnetic field from noncontact IC card facility	250,000
Shoko Tsuru,	Verify the history of Yatsushiro Bay's abnormalities hearing from fishermen	300,000
Aileen Mioko Smith, Green Action	AOMORI CITIZENS SPEAKING THEIR MIND —Interviews in Aomori Prefecture Where Reprocessing Plant Operation is Scheduled	400,000
Seiichiro Takemine	What has the US Responded to the Nuclear Damage :In the Case of the Marshall Islands	600,000
Michiyo Higuchi	Rational drug use by local health professionals at community level in Timor-Leste, and impacts of training	600,000
Hideyuki Ban, Citizens' Nuclear Information Center	Research Project into the Social Costs of Nuclear Energy	500,000
Natsuki Okuda	An estimation of the validity concerning the natural use of ecotourism in Japan	500,000
Masami Tajiri, The Study group for the environment and human welfare on Minamata disease	Investigation researches on the recovery support from life are human right of Minamata disease as social welfare academic aspects.	500,000
Shinichi Sato, Group for Conservation Ecological Research on the Isahaya Bay	Conservation ecological research on "Disaster of the Ariake Sea" caused by the Isahaya Reclamation Project.	300,000
Satoshi Kouda	A Research on the Actual Conditions of Diesel Exhaust Gas Regulation in the Metropolitan Area and its Effects and Perspective of Environmental Policy on Automobiles.	300,000
Grant II ; Grants for Study / Training Encouragement for Individuals in Japan		
Recipient	Theme	Grant Amount
Ryoko Matsuno	Regulating Endocrine Disrupters.	600,000
Grant III ; Grants for Survey and Research by Asian Individuals and Groups		
Recipient	Theme	Grant Amount
Lisitsyn Dmitry, Sakhalin Environment Watch	To study the influence of the construction of the "Sakhalin-2" oil and gas project on indigenous peoples, local communities, and salmon spawning rivers.	500,000
Borjigin Sergelen, Green Vision of Inner Mongolia	Surveillance study about the afforestation organization of Japan which tackles the Inner Mongolia desertification prevention	400,000
